

Den Building

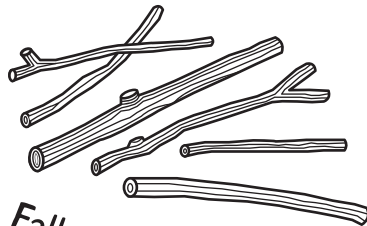

Birches Valley is where we go, search for branches high and low. Gather them up with leaves and then, it's time to build an amazing den.

Build your own den!

Birches valley has a special den building area opposite the gruffalow. Find a tree, lean your branches together to make walls and fill in the gaps with twigs and leaves to keep your den warm. Remember to leave a doorway so you can get in and out. Ask a grown up to help.
